

"REPAIR OR REPLACE?"

WATER HEATER EDITION

Water heaters usually blend into the operational static of a comfortable and efficient home here in the Fort Sills, Duncan, and Lawton area. But when you are having trouble with the hot water in your home, how can you know if it is time to repair your water heater or replace it with a new, more efficient model? Pippin Brothers Home Services will help you get to the bottom of your water heater headache, one question at a time!

HAS YOUR 6 YEAR WARRANTY EXPIRED?

YES

A new water heater from Pippin will be more efficient than your old one. Time to schedule an installation at your convenience? We can help with affordable payment plans too!

NO

IS YOUR WATER HEATER LEAKING?

YES

Call Pippin and ask about your water heater replacement options!

NO

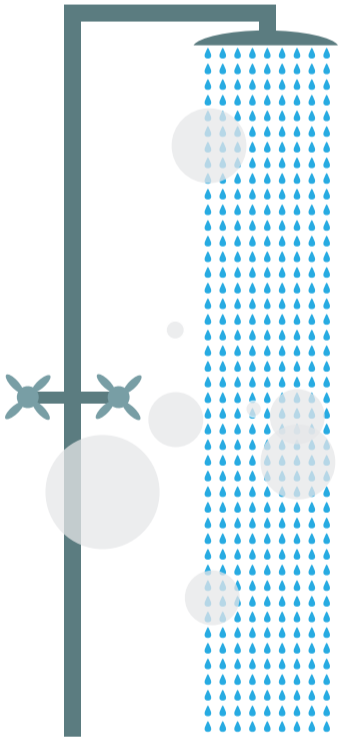

ARE YOUR ENERGY BILLS INCREASING?

YES

Call Pippin and ask about your water heater replacement options!

NO

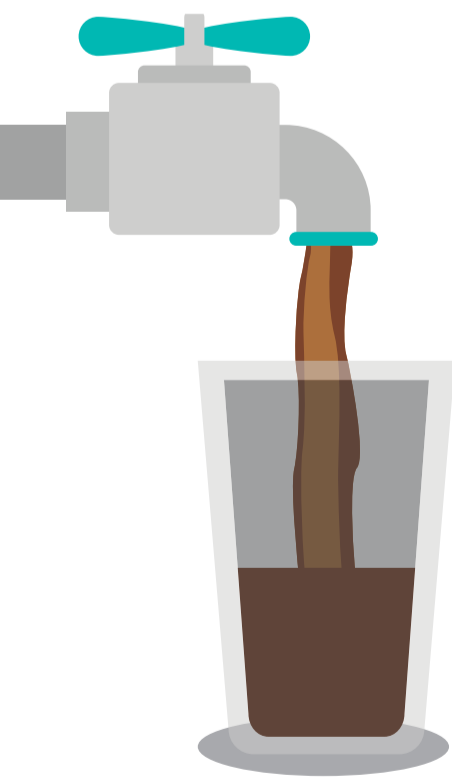

IS YOUR WATER NOT GETTING HOT ENOUGH, OR NOT GETTING HOT AT ALL?

YES

Call Pippin and ask about your water heater replacement options!

NO

IS THE WATER COMING OUT OF YOUR FAUCET BROWN OR RUST-COLORED?

YES

Time to call a water heater repair technician. Once you have had a chance to look over the water heater assessment from Pippin Brothers, you can move onto the next question.

NO

Congratulations— you still have some life left in your water heater!

Call Pippin for All Your Water Heating Needs

Whether you are looking for a simple water heater repair or you want to replace your outdated water heater tank with a tankless water heater that can provide efficient, on-demand hot water, the plumbing experts at Pippin Brothers have got you covered. We can help you understand the immediate cost of a tankless water heater installation and the energy savings you can expect each month. You can also stick with your existing water heater and get a tank flush, valve leak inspection, and the internal sacrificial magnesium anode rod replaced to maintain and extend its life.
